

87 SERIES

Multi Pot Bag Filter Housing

The **87 Series** multi bag housings are designed for use with the Amazon **DuoLine** A Series 5½" ring style bags.

The top opening style is equipped with a Cast Vee clamp as standard (8703 model only) with the option of Rathmann style bolted closures for pressures up to 10 bar g.

With a bottom outlet connection, the **87 Series** is ideal for batch applications, where free draining and frequent process changes take place.

Widely used in the chemical processing and water treatment world, the **87 Series** housing offers exceptional surface area with maximum economy. The slim line A Series **DuoLine** bags maximise the available area for increased dirt capacity and flow when compared to the more conventional 7" diameter bags. With high build quality and a wide ranging options list, this housing can be used in almost all areas of the liquids processing industry.

The housing will accept the full range of Amazon bags ranging from 1 to 1000µm with nominal lengths of 32" and 48".

Product Features

- Closure options include Vee clamp (8703 only) or bolted style
- Bottom dished end to aid clean down.
- Each housing hydrostatically pressure tested
- Internally and externally electropolished as standard
- Robust bag support basket assembly fabricated from perforated sheet rather than wire mesh for extra strength
- Positive bag seating mechanism to minimise risk of seal bypass
- Wide range of options available for connection sizes and types and materials of construction
- PED and ATEX Compliant

Accessories	Part Number
Pressure Gauge and Vent Valve Kit 	60S000016
Pressure Gauge and Auto Vent Valve Kit 	60S000082
Displacement Pod 	81S011000

Features and Benefits

- Integral vent to aid efficient filter changeout
- Each housing is etched with a unique serial number for full traceability
- Full housing customisation service available

Product Range

Amazon Filters design and manufacture an extensive range of liquid filtration systems, providing one of the widest selections of filtration vessels, depth filters and pleated cartridges available today, ensuring excellent process and filter compatibility. As one of Europe's leading manufacturers of filtration systems, Amazon Filters is able to offer a solution to meet all filtration requirements. Amazons' filters are manufactured in clean room conditions and all products come with detailed Product Validation Guides and Technical Support documentation.

AMAZON

87 Series Technical Data

Maximum Operating Conditions

Pressure Range: Liquid: Vee clamp: 7 bar g
Screw clamps: FV / 10 bar g
Gases: Screw clamps: FV / 1 bar g *1
Temperature Range: 8703: -10°C / 150°C
8705: -10°C / 110°C

Materials of Construction

Body: **8703** 316L St. Steel **8705** 316L St. Steel, 304 St. Steel
Closure: Cast Clamp - 304 St. Steel*1
Screw clamps - Zinc plated carbon steel
(Optional stainless steel)

Finish

Vessel: **8703** Electropolished **8705** Bead Blasted
Basket: **8703** Pickled **8705** Pickled

Connections

Inlet/Outlet: **8703** 4" Flange **8705** 6" Flange

Model	Dimensions					Volume (Litres)	Dry Weight
