

Allergen Free

# La GreenFine® Mix

**GreenFine® Mix** is an allergen-free formulation for the preventive and curative treatment of white and rosé musts that show oxidative, bitter or green characters.

## ENOLOGICAL BENEFITS

- ◆ **The synergy of PEA and PVPP on polyphenols:** pea protein and PVPP both have an excellent ability to remove phenolic compounds. The pea proteins and PVPP in GreenFine® Mix complement one another to remove oxidisable (D0320) and oxidised (D0420) phenolic compounds. It decreases bitterness and off-odours (greenness/mouldiness).
- ◆ **Maximise the aromatic potential:** removing undesirable compounds from the must maximises the aromatic potential and helps to preserve the wine's aromas.
- ◆ **Can be used in static clarification and flotation.**

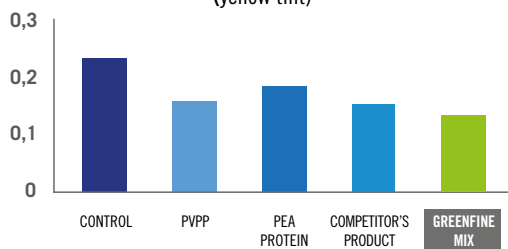

## EXPERIMENTAL RESULTS

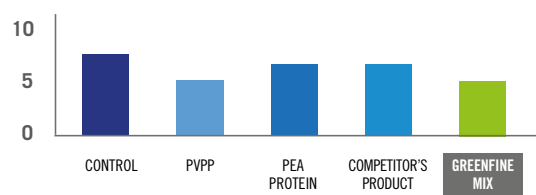

### FINING TRIALS ON WHITE MUSTS (SAUVIGNON BLANC)

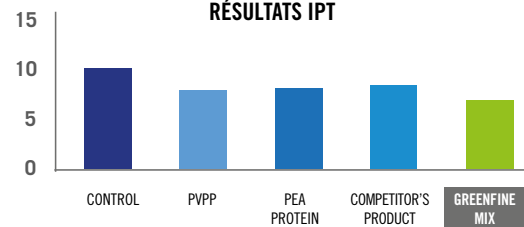

**D0420 RESULTS**  
(yellow tint)

**D0320 RESULTS**  
(oxidisable and oxidised polyphenols)

**RÉSULTATS IPT**

## USAGE

**Dosage:**

- ◆ 15 to 80 g/hL.

**Conservation and instructions:**

Please see the technical data sheet or packaging.

## PACKAGING

- ◆ 1 kg and 10 kg bags.

**Blue H2O Filtration Pty Ltd**
