

WORKPLACE HEALTH & SAFETY POLICY

BHF is committed to delivering its products and services in a manner that will not place at risk the health and safety of its employees, contractors, visitors, and other affected stakeholders.

The main objectives are:

- The development and fostering of a company-wide culture of health and safety awareness.
- The implementation and maintenance of hazard and risk identification and control systems, to eliminate preventable work related injuries and illness and meet regulatory requirements where applicable to AS/NZS 4801.
- The identification of occupational health and safety objectives and targets, and the allocation of necessary resources to maintain health and safety in our workplaces.
- Compliance with all relevant legislative requirements for health and safety in the workplace.
- Communication and consultation with all participants in our workplaces regarding occupational health and safety issues.
- Periodical review of our OH&S Management System to ensure continual improvement, such that it remains relevant and appropriate to our activities and operations.
