Eye contact: May cause eye irritation upon direct contact.

Ingestion: Excessive ingestion could lead to intestinal discomfort (e.g. diarrhea, bloating, cramping, etc.).

Following inhalation: In some cases, repeated exposure may lead to allergic sensitization based on the exposure level, duration and susceptibility of the individual. Subsequent chronic or acute exposure in sensitized persons may cause allergic reaction within minutes or a delayed effect, or a mixture of both. Typical symptoms are respiratory irritation, breathlessness, coughing, tightness and difficulty breathing.

Section 3: Composition and information on ingredients

3.1 Ingredients and composition

Product identifier	CAS/EC numbers	Substance name/classification	Concentration
Killbrett	9012-76-4	Chitosan	≤ 100 %

Section 4: First aid measures

4.1 Description of first aid measures

Inhalation: Provide fresh air. In case of respiratory tract irritation, consult a physician.

Skin contact: After contact with skin, wash immediately with plenty of water and soap. Consult a physician.

If on clothing: Brush off in a well-ventilated area. Clean clothing when possible.

Eye contact: If product gets into the eye, keep eyelid open and rinse immediately with large quantities of water, for at least 5 minutes. Subsequently consult an ophthalmologist. Consult a physician.

Ingestion: Rinse mouth immediately and drink plenty of water. Consult a physician.

4.2 Symptoms caused by exposure

Repeated exposure may lead to allergic sensitization based on the exposure level, duration and susceptibility of the individual. Subsequent chronic or acute exposure in sensitized persons may cause allergic reaction within minutes or a delayed effect, or a mixture of both. Typical symptoms are respiratory irritation, breathlessness, coughing, tightness and difficulty breathing. Can cause eye and skin irritation.

4.3 Medical attention and special treatment

Treat symptomatically. Consult a physician.

Section 5: Firefighting measures

5.1 Suitable extinguishing equipment

Water, carbon dioxide (CO₂), foam, extinguishing powder.

Unsuitable extinguishing media: High powder water jet.

5.2 Specific hazards

In case of fire: Avoid dust formation due to explosion hazard. Toxic fumes, carbon monoxide (CO) and carbon dioxide (CO₂) may be liberated.

5.3 Special protective equipment and precautions

In case of fire: Wear self-contained breathing apparatus. Danger of slipping by leaked/spilled product.
