82 & 83 SERIES

5¹/₂" Bag Filter Housing

The 82 & 83 Series bag housings are designed for use with the DuoLine A Series 5½" ring style bags. The top opening style is equipped with a Cast Vee clamp as standard with the option of Rathmann style bolted closures for pressures up to 10 bar g.

These housings will accept the full range of Amazon standard A Series bags ranging from 1 to $1000\mu m$ with nominal lengths of 16" and 32".

The **82 Series** is free standing with side inlet and outlet connections. These small diameter filter housings offer great flexibility in terms of high flow and limited floor space requirements.

Use of the inverted dished end style free standing 82 Series housing is ideally suited to continuous process operations where economy and low volume hold up is paramount.

The **83 Series** is infinitely flexible with adjustable legs and bottom outlet connection, making it ideal for batch applications, where free draining and frequent process changes take place.

Product Features

 Internally and externally electropolished as standard

Features and Benefits

- Integral vent to aid efficient filter changeout
- Each housing is etched with a unique serial number for full traceability
- Full housing customisation service available
- Internally and externally electropolished as standard

Product Range

Amazon Filters design and manufacture an extensive range of liquid filtration systems, providing one of the widest selections of filtration vessels, depth filters and pleated cartridges available today, ensuring excellent process and filter compatibility. As one of Europe's leading manufacturers of filtration systems, Amazon Filters is able to offer a solution to meet all filtration requirements. Amazons' filters are manufactured in clean room conditions and all products come with detailed Product Validation Guides and Technical Support documentation.

ure

- Positive bag seating mechanism to minimise risk of seal bypass
- Wide range of options available for connection sizes and types and materials of construction
- Rated to 10 bar g liquid

82 Series housings feature:

- Vee clamp or bolted style closures
- Inverted dished end
- PED and ATEX Compliant

83 Series housings feature:

- Vee clamp or bolted style closures
 Conventional dished end to aid cleandown
- Each housing hydrostatically pressure tested
- PED and ATEX Compliant

82 & 83 Series Technical Data

Maximum Operating Conditions

Pressure Range:	Cast clamp	Screw clamp
Liquid:	10 bar g	FV/10 bar g
Gas Group 2:	7.5 bar g	FV/7.5 bar g
Temperature Range:	-10°C / 150°C	-10°C / 150°C

Materials of Construction

Body:	316L St.Steel
Closure:	Cast clamp - 304 St. Steel
	Screw clamps - Zinc plated carbon steel (Optional stainless steel)

Finish

Vessel: Basket: Electropolished Pickled

Connections

Inlet / Outlet:	2" BSPM
Vent:	1⁄4″ BSP
Drain:	1/2" BSPM (82 Series only)

Model		Din	nensic	ons	Volume	Dry Weight
